

HAN WANG

(+1)267-570-6839, hw2786@columbia.edu
Northwest Corner Building, Floor 10M,
550 W. 120th St, New York, NY 10027

EDUCATION

Columbia University, New York, NY

2020 - Present

Ph.D. in Electrical Engineering

Department of Electrical Engineering

Advisor: James Anderson

GPA: 3.9042 / 4.00

University of Pennsylvania, Philadelphia, PA

2018 - 2020

M.A. in Applied Mathematics

Department of Applied Mathematics and Computational Science

Advisor: Victor M. Preciado

GPA: 4.00 / 4.00

National University of Singapore, Singapore

2017 - 2018

M.S in Mathematics

Department of Mathematics

Advisor: Haizhao Yang

GPA: 4.75 / 5.00

Stanford University, CA, USA

2015

Summer school in Financial Modeling and Statistics

Capital University of Economics and Business, Beijing, China

2013 - 2017

B.S in Economics

Department of Economics

Advisor: Jiazhang Zhao

GPA: 4.24 / 5.00 Rank: 1 / 121

Research Interests: Federated Learning, Large-scale Optimization, Randomized Algorithm, Control Theory, Machine Learning

PUBLICATIONS

1. **Han Wang**, Siddhartha Marella, James Anderson. *FedADMM: A Federated Primal-Dual Algorithm Allowing Partial Participation*. arXiv:2203.15104 [pdf]

HONORS AND AWARDS

- Wei Family Scholarship (Departmental Fellowships for outstanding PhD students)
- National Scholarship (top 1% students nationwide)
- First Prize in the Chinese Mathematical Contest (8/ 70,000)
- President Scholarship (top 10 students in university and I ranked 1st)
- Chinese Telecom Scholarship (top 5000 students nationwide)
- Outstanding Undergraduate Thesis
- Meritorious Winner of The Interdisciplinary Contest in Modeling

INTERNSHIP

Economic Researcher, BMW group (Beijing, China)

April 2017 ~ July 2017

- Utilized statistical methods like SARIMA, SVM or BP to forecast macroeconomic index.
- Predicted CPI by using dynamic regression model and foreign exchange rate by using ARIMA+SVM.
- Predicted the growth rate of GDP by exploiting GARCH combined with SVM. Simulate the short-term trend of the population by GM (1, 1) and long-term trends with partial differential equations.

PROFESSIONAL ACTIVITIES

Teaching Assistant: ESE 605 Modern Convex Optimization, UPenn, (Spring 2020), Instructor: Prof. Nikolai Matni; E4650 Convex Optimization for Engineering, Columbia University, (Fall 2020), Instructor: Prof. James Anderson
